CLASS DELIVERY SOFTWARE

MAXHUB EasiNote5

MAXHUB Share

Alliance Platform

MAXHUB

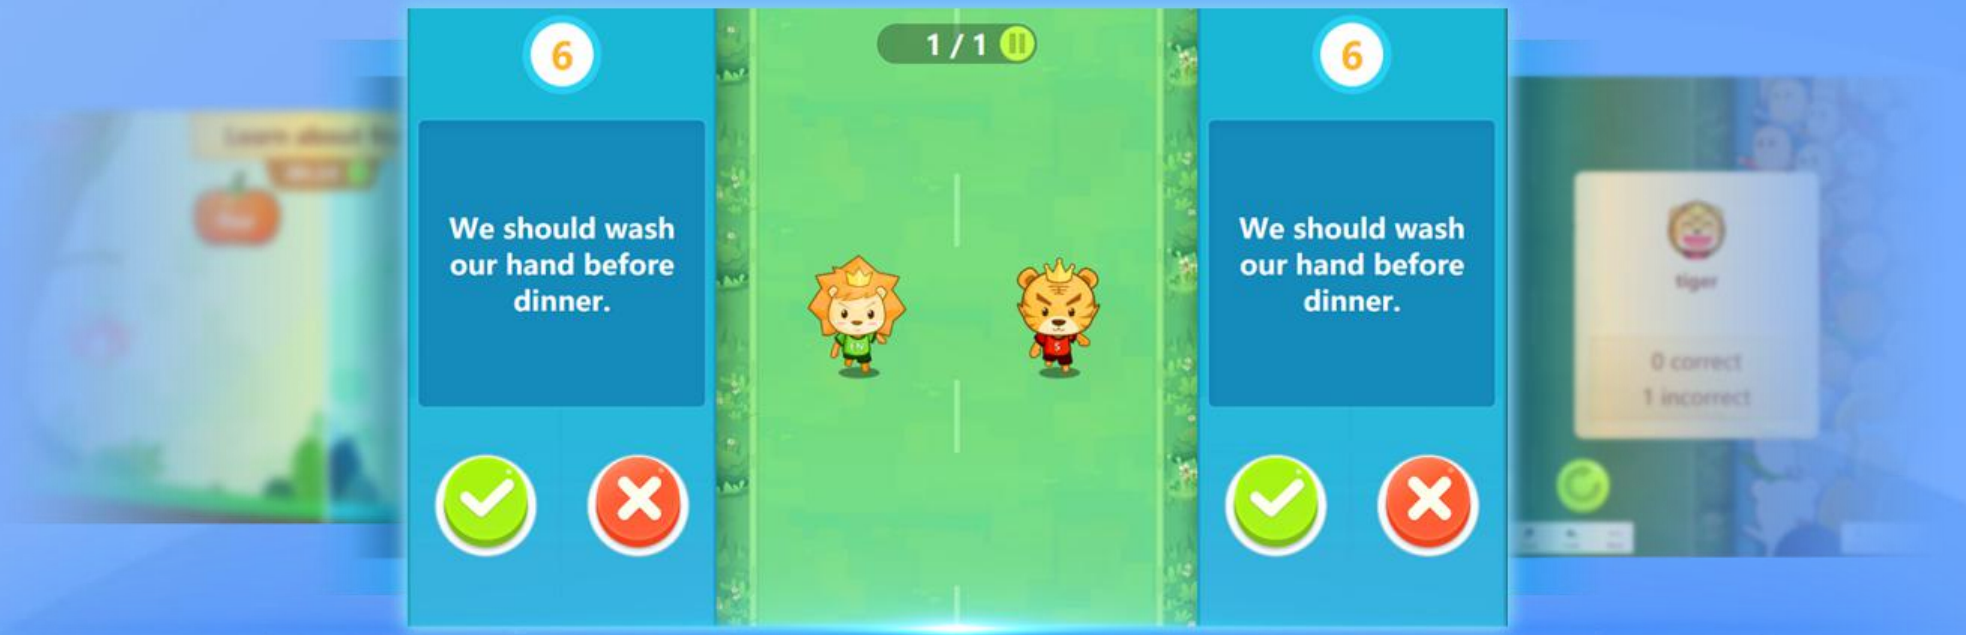
Lesson Delivery Software

Easinote5 is a collaborative education whiteboard application for interactive displays.
It is purposefully designed for teachers to engage students with compelling content.

MAXHUB

Creating Interactive Class

Easinote5 provides various class activity templates for student engagement.
These games help with better learning results while adding fun to classes.

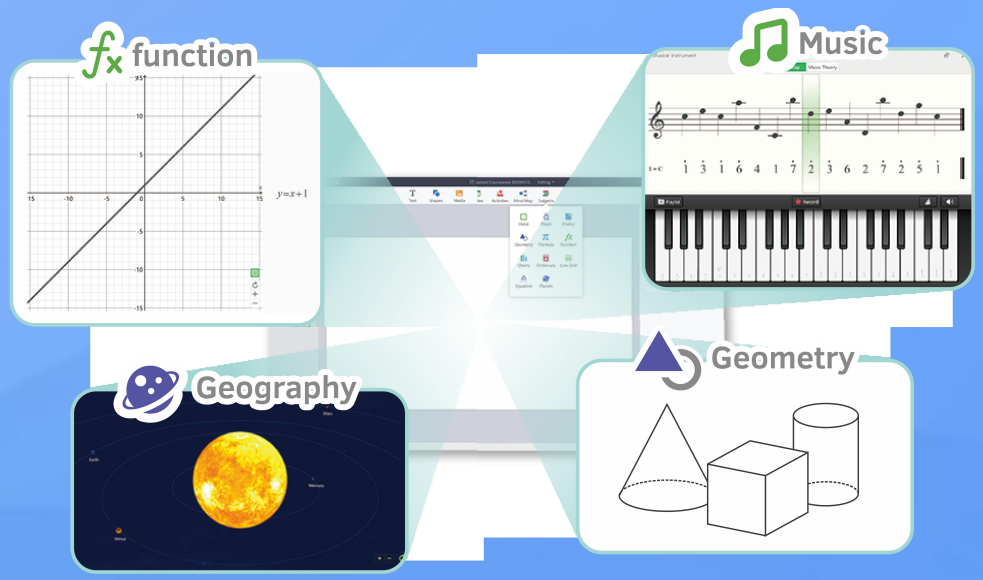


Simple Divide | Multiple Divide | Close Test | Keypoints Match | Group Race | True or False

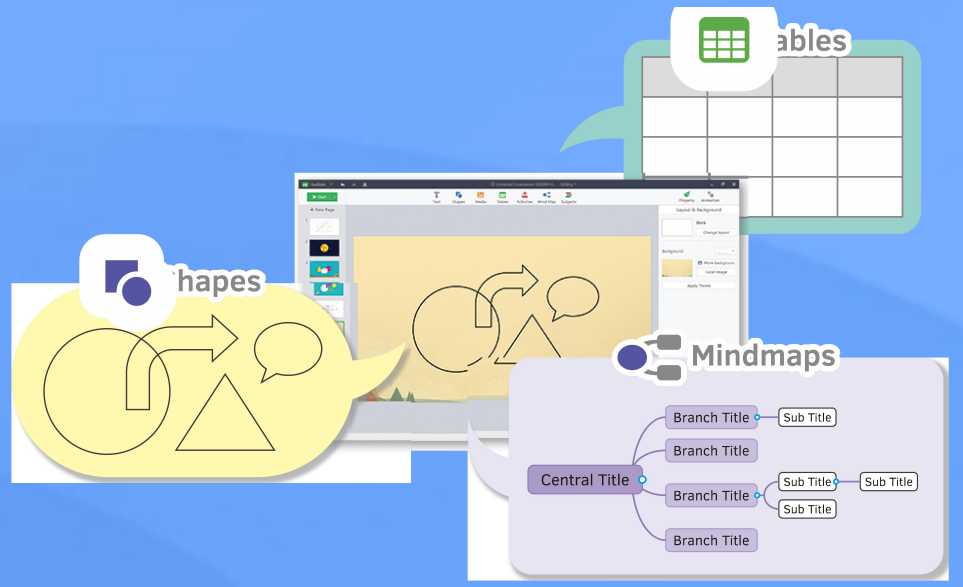
MAXHUB

Boundless Eductaional Tools

Assorted tools for subjects like mathematics, geometry, music, geography, etc.
Making class delivery more vivid than ever!



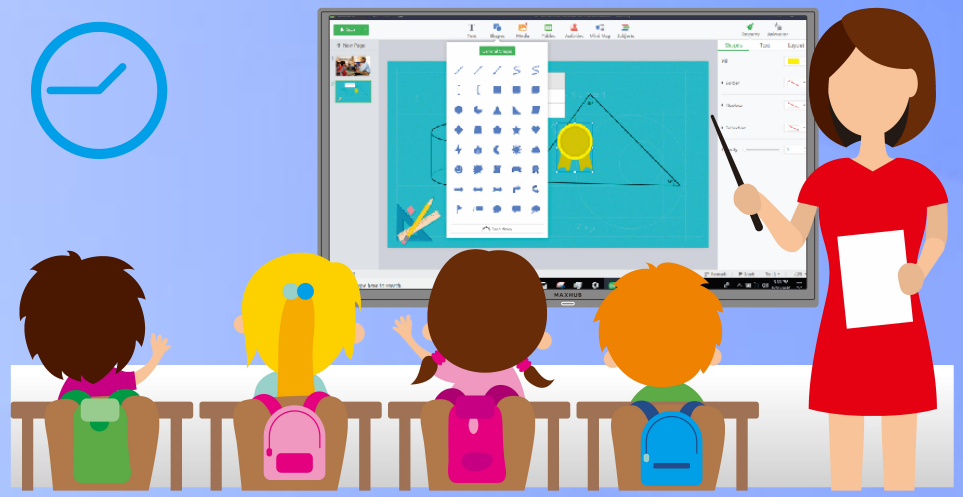
Shapes, tables, mindmaps… more tools help teachers better delivery classes.



MAXHUB

For Both Class Preparation & Delivery

Teachers can make courseware on their computer and save it to the cloud*.

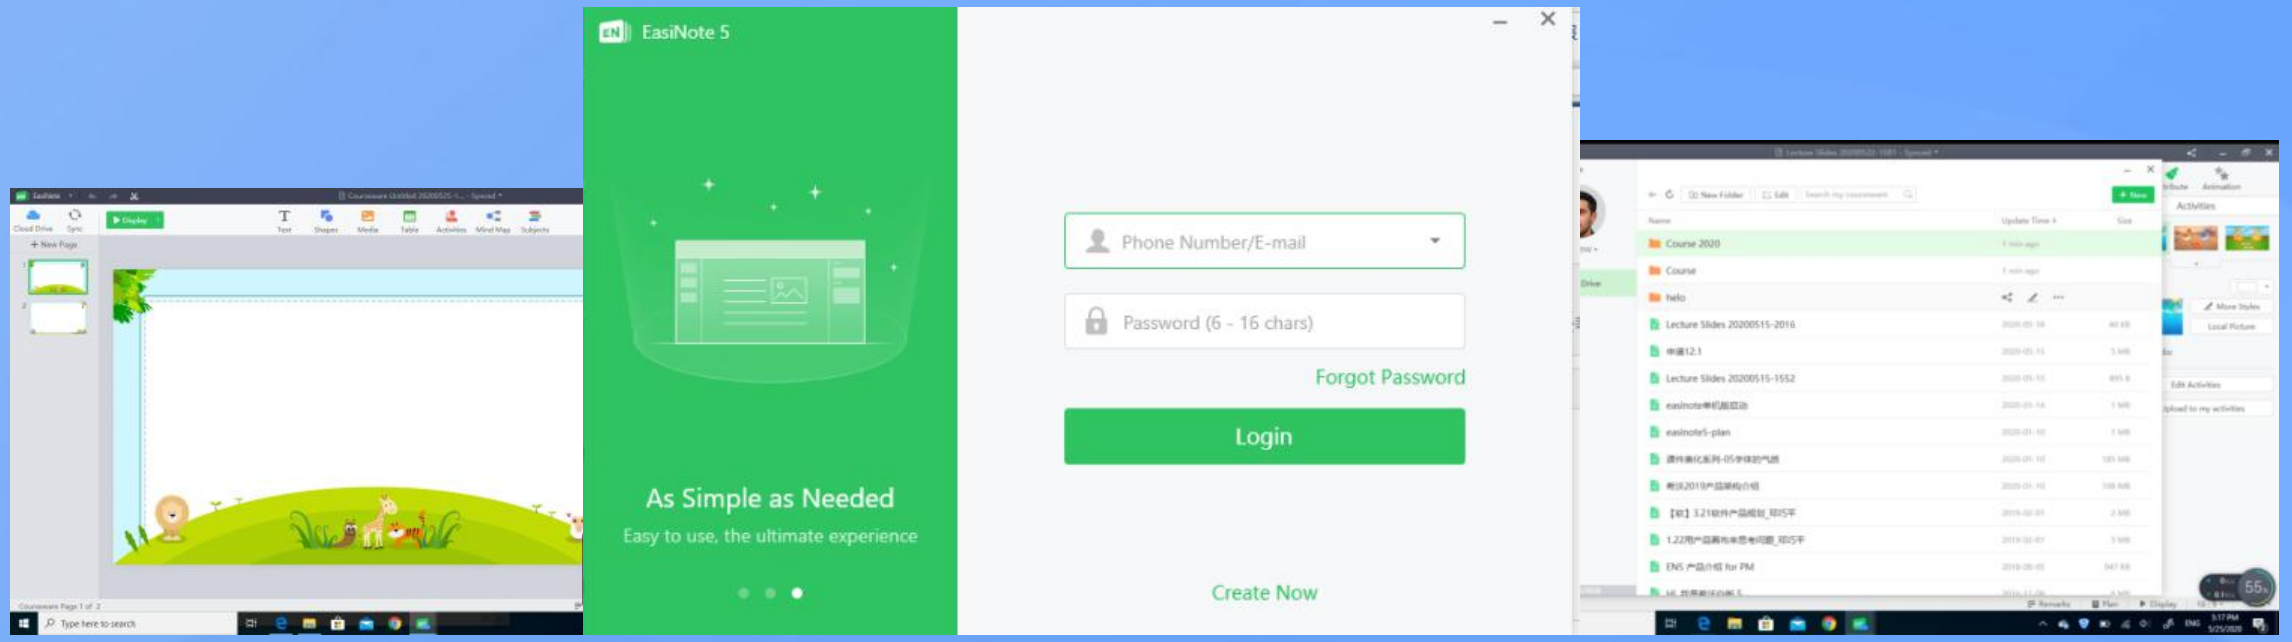


During class, EasiNote 5 can encourage student collaboration at the front of the class with features including subject tools, spotlights, timers and more.

* The cloud saving function is not available for MAXHUB EasiNote 5 Lite.
* MAXHUB EasiNote 5 Lite is only available for Windows 10.

MAXHUB

Synchronize file anytime, anywhere*



The cloud version of EasiNote 5 allows teachers creating their personal accounts, save courseware to cloud drive and sychornize file in real time.
Click “Sync” then you can save every changes you made to your file.

*Features mentioned in the page only refer to EasiNote 5 Cloud.

MAXHUB

Connect

This software creats a Wi-Fi-based system for interaction between mobile terminal and IFP

- Wireless Transmission

Transmit files or pictures from mobile devices to IFP wirelessly

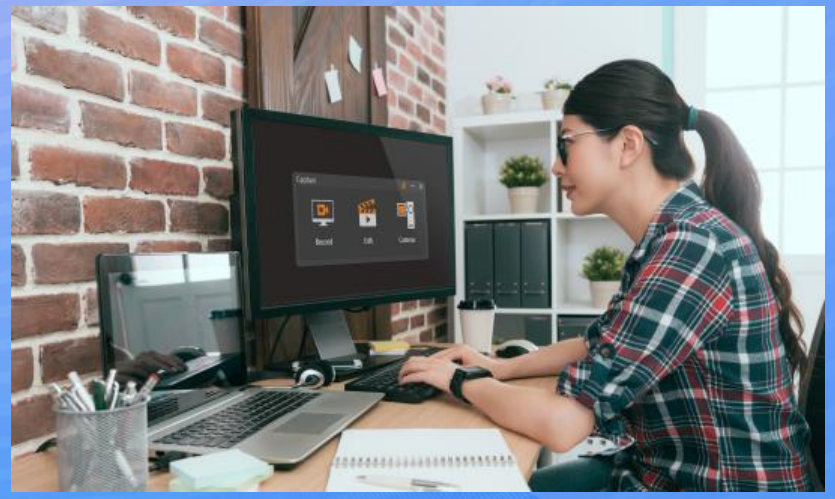
- Remotely Control IFP

Teachers can click, drag, scroll, annotate and make comments on the screen via mobile device

MAXHUB

Capture

Online video and audio recording, editing and class recording...achieve them all via our software Capture



All-in-one Software

Record class delivery

Edit video and share

MAXHUB

MAXHUB Share

MAXHUB Share allows participants project their screens onto the interactive flat panel. BYOD (Bring Your Own Device) is now possible

It supports up to four students to share their screens from phones, tablets, PCs, or Macs.

MAXHUB

ONLINE LEARNING

Always Get Ready

Online learning is becoming a trend. Thanks to technology, our kids can stay safe at home without their study being interrupted.

We suggest teachers using MAXHUB online learning kit, which includes MAXHUB interactive flat panel, EasiNote 5 class preparation & delivery software, and USC10.

Mode 1

Learn From Home

MAXHUB

UCS10 gets you ready for classroom video conferencing

MAXHUB UCS10 is specially designed for distant learning (class video conferencing).
With 1 MAXHUB interactive flat panel, 1 UCS10 and a computer, teachers can start distant teaching at home. Students can connect with each other or participate in class remotely using their laptop.

Integrated with both camera and speakerphone, MAXHUB UCS10 supports multi-device screen sharing. It's an grab-n-go product for online teaching.

MAXHUB

It Sounds Real

High fidelity speaker that preserves clear voice and fits large room layouts

Remote Teaching

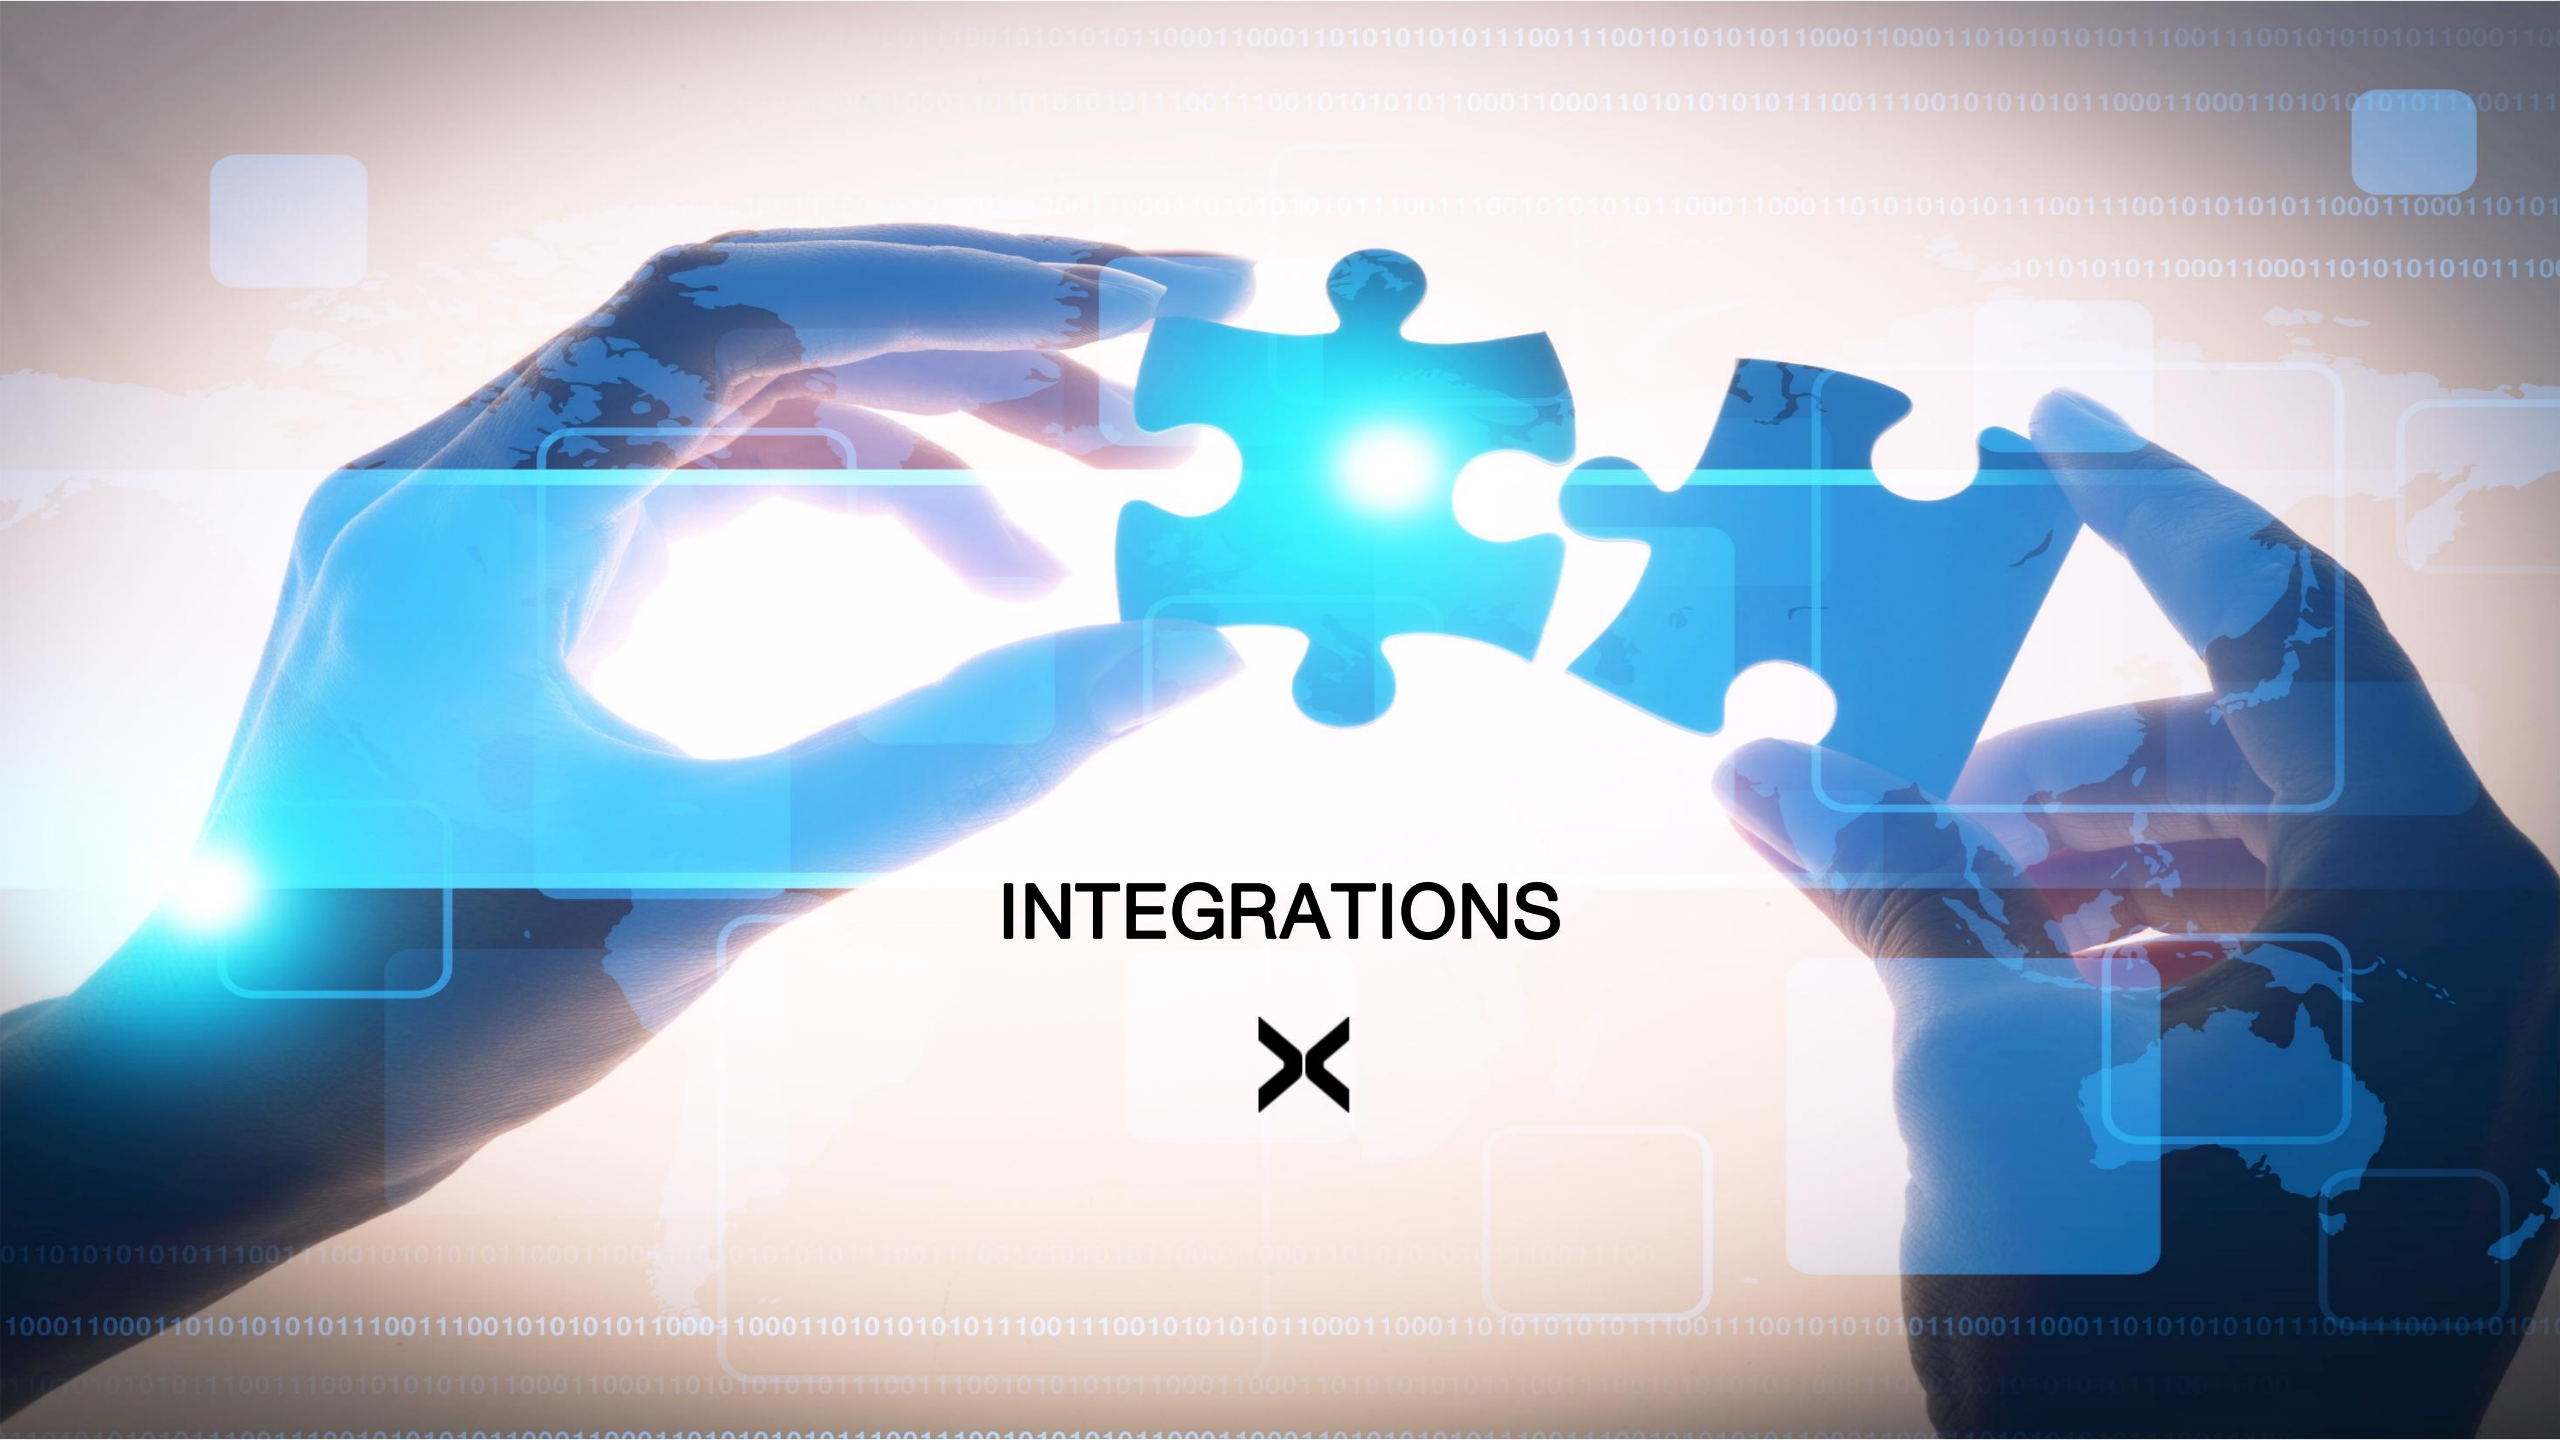
MAXHUB

Less Travelling, More Learning

Visits from experts

Under some special period that interantional travels are limited, experts can still" visit" and share knowledge with our students.

MAXHUB USC10 preserves clear voices so that students can be heard during the interaction, even they are sitting in the back of a big classroom.



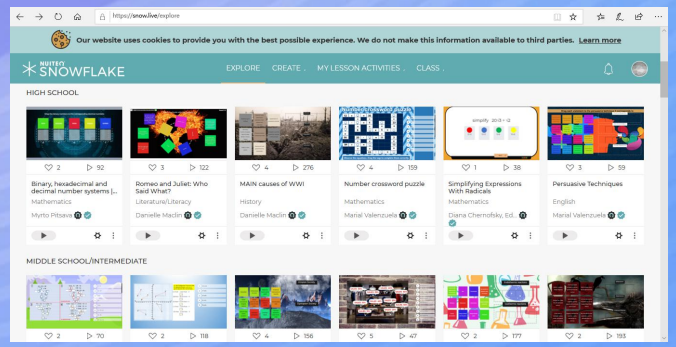
INTEGRATIONS

MAXHUB × NUITEQ SNOWFLAKE

Snowflake is an educational platform that provides schools, teachers, and students engaging active learning experience. Snowflake platform and

MAXHUB IFP mix perfectly and move eductaion from teacher-centered to student-centered learning.

MAXHUB NUITEQ SNOWFLAKE

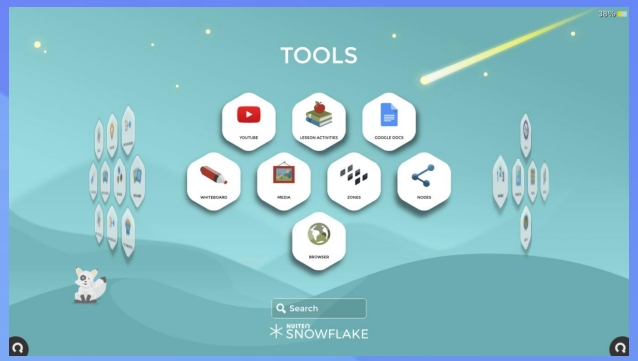


Save Lesson Planning Time

The Snowflake content library gives access to standard-aligned lesson activities created by teachers for teachers. And they can get started right inside Snowflake

Highlight Student Work

Students share work they are proud of to their classmates, and teachers can easily highlight them MAXHUB, which allows students to mirror their iOS, Android, Windows, and Mac devices inside a zone.



Video-linked Lessons

More and more teachers are using videos to boost student engagement in the classroom. Snowflake provides video-linked lessons and easy access to Youtube.

MAXHUB × intel UNITE

- When combined with MAXHUB interactive flat panel, the Intel Unite® solution delivers a productive and secure unified communication platform.
- With Intel Unite®, class starts quickly and easily: teachers can simply walk into a room and immediately begin to wirelessly share their screen content to MAXHUB IFP. Media from any range of devices, such as tablets, laptops, and mobile phones, can be displayed on the IFP to better facilitate presentations and class brainstorming。

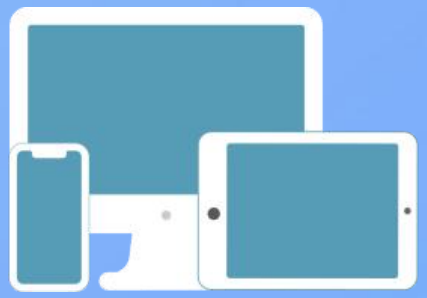
Seamless user experience

Connect wirelessly via pin, badge scan login or ultrasonic meeting join.

Support 4-screen wireless sharing per display and remote collaboration

video streaming 1080p up to 30FPS

MAXHUB × intel UNITE



Open Platform OS cpmpatibility

The Intel Unite® solution works with what you have, connecting all major devices, OSs, and displays.

Plugins to Advance Productivity

Plugins from the Intel Unite® app showcase let you easily add existing tools and functionality, like Skype for Business, Zoom, in-room controls, whiteboarding, and more.

More Secure and Manageable

Based on an Intel vPro® platform hub computer, the Intel Unite® solution can be remotely managed like any other computer in your environment. All content shared on the platform is fully encrypted with 256-bit SSL and access codes refresh frequently for added security.

Collaborate Anytime, Anywhere
